Discover What's Possible with Limitless Lab Enablement

## When your connectivity middleware is truly vendor-neutral, your options are limitless.

As the leader in lab middleware for 35 years, we understand how to strengthen clinical labs with truly vendor-neutral software better than anyone else. Our flexible solutions put choice in your expert hands and enable labs to work smarter, achieve more, and focus on what matters most: your patients.

### Set your lab up for success with Vendor-Neutral Connectivity from Instrument Manager™

- Connect any instrument, LIS or EHR with full interoperability for an open and expansive lab ecosystem.
- Simplify your operations with centralized control of all instruments and labs – from 1 instrument in 1 lab to many instruments at multiple sites.
- Future-proof your lab – maintain complete control of your lab always; avoid vendor lock-in.
- Save money – never pay to replace or upgrade an instrument driver.

### Raise the Roof on Productivity

- Autoverify up to 95% of your lab's test results for faster turnaround times.
- Free up your staff to accomplish much more by eliminating time-consuming manual reviews.
- Standardize lab testing for improved patient safety and quality care.

### Expedite and Improve Quality & Compliance

- Catch issues before they disrupt productivity.
- Improve quality control with time-saving automation.
- Decrease the chance of human error.
- Streamline operations with automated reporting and compliance.

### Decrease Downtime. Improve Performance.

- Empower your staff with tools to quickly recover from unexpected downtime.
- Monitor all instrument & LIS connectivity from anywhere.
- Achieve rapid disaster recovery with minimal involvement from IT.

### Enhance Operations by Harnessing Data Insights

- Download data directly from Instrument Manager.
- Drill-down into KPI tracking: TAT, AV rates, QC violations, and much more.
- Make informed decisions to improve productivity.

## DI's Integrated Lab Enablement Solutions

When you combine a shrinking pool of qualified lab personnel with increasing workloads and demands for faster turnaround time, it's essential for labs to accomplish more with less. Our limitless lab enablement solutions equip organizations with the technology, expertise and world-class support to achieve ever-improving levels of performance while putting patient care first.

### Our Lab Enablement Solutions

#### Vendor-Neutral Connectivity

- Instrument Manager™

#### Analytics & Intelligence

- Lab Intelligence
- Open Data Exchange

#### Productivity Solutions

- Autoverification
- Flexible rules engine
- Standardized workflows
- Sample Archival

#### Performance & Reliability

- Lab GPS™
- High Availability & Disaster Recovery

#### Quality & Compliance Solutions

- Moving Averages & Moving Medians
- Daily & Peer QC Integration
- Lab Proficiency Reporting
- EP Evaluator®

### Our Lab Enablement Products
